

PROCEEDINGS OF SPIE

Metamaterials: Fundamentals and Applications 2014

**Nader Engheta
Mikhail A. Noginov
Nikolay I. Zheludev**
Editors

**17–21 August 2014
San Diego, California, United States**

Sponsored and Published by
SPIE

Volume 9160

Proceedings of SPIE 0277-786X, V. 9160

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Metamaterials: Fundamentals and Applications 2014, edited by Nader Engheta, Mikhail A. Noginov, Nikolay I. Zheludev,
Proc. of SPIE Vol. 9160, 916001 · © 2014 SPIE · CCC code: 0277-786X/14/\$18 · doi: 10.1117/12.2086439

Proc. of SPIE Vol. 9160 916001-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/14/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIDigitalLibrary.org

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID Number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID Number.

Contents

- vii *Authors*
ix *Conference Committee*

METASURFACES

- 9160 06 **Gap plasmon-based metasurfaces: fundamentals and applications (Invited Paper)**
[9160-5]

HYPERBOLIC METAMATERIALS I

- 9160 0F **Self-assembled tunable photonic hyper-crystals** [9160-14]

HYPERBOLIC METAMATERIALS II

- 9160 0K **Design of hyperbolic metamaterials by genetic algorithm** [9160-19]

NOVEL PHENOMENA I

- 9160 0S **Functional optical metamaterials employing spatial dispersion and absorption (Invited Paper)** [9160-25]
9160 0X **On the electrodynamics of moving permanent dipoles in external electromagnetic fields**
[9160-30]
9160 0Y **Anderson localization for discretely disordered metamaterials: polarization and off-axis incidence effects** [9160-90]

THERMAL AND IR METAMATERIALS

- 9160 10 **Experimental verification of heat flux bending in multilayered thermal metamaterials**
[9160-32]
9160 11 **Infrared resonant absorption by coupled surface plasmon modes in an ultra-thin metamaterial** [9160-33]

ALL DIELECTRIC METAMATERIALS

- 9160 1A **Non-steady-state organic plasmonics and its application to optical control of Coulomb blocking in nanojunctions** [9160-43]

CONTROLLING PHYSICAL PHENOMENA WITH METAMATERIALS

- 9160 1G **Effect of layered composite meta-structures on the optical activity and ellipticity of structural biomolecules** [9160-49]

NOVEL MATERIAL PLATFORMS

- 9160 1L **Nanoarrays for the generation of complex optical wave-forms (Invited Paper)** [9160-54]
9160 1N **Experimental demonstration of negative index of refraction in magnetic semiconductors (Invited Paper)** [9160-56]

ACTIVE CONTROL II

- 9160 1Q **Bilayer four-fold rotationally symmetric subwavelength nanostructures for chirality switching** [9160-60]

FABRICATION

- 9160 2I **Temperature dependent surface modification of silica spheres with methacrylate** [9160-71]

IMAGING AND CLOAKING

- 9160 2D **Polarization controlled colorful images reconstructed by reflective meta-hologram (Invited Paper)** [9160-83]

POSTER SESSION

- 9160 2I **Realization of negative index in second-order dispersive metamaterials using standard dispersion models for electromagnetic parameters** [9160-88]
9160 2M **Effective magnetic permeability of a composite structure of conducting square rings** [9160-93]
9160 2O **Scattering and coupling between subwavelength resonators** [9160-96]
9160 2Q **Plasmonic color filters to decrease ambient light errors on active type dual band infrared image sensors** [9160-98]
9160 2R **Characterization of ferromagnetic/dielectric systems for metamaterials applications** [9160-99]

- 9160 2S **Anisotropy modeling of polarization dependent terahertz metamaterials** [9160-100]
- 9160 2T **Excitation of surface waves in the photonic crystal/graphene structure for terahertz frequency range** [9160-101]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chairs

Satoshi Kawata, Osaka University (Japan)
Manijeh Razeghi, Northwestern University (United States)

Symposium Co-chairs

David L. Andrews, University of East Anglia Norwich (United Kingdom)
James G. Grote, Air Force Research Laboratory (United States)

Conference Chairs

Nader Engheta, University of Pennsylvania (United States)
Mikhail A. Noginov, Norfolk State University (United States)
Nikolay I. Zheludev, University of Southampton (United Kingdom) and
Nanyang Technological University (Singapore)

Conference Program Committee

Andrea Alù, The University of Texas at Austin (United States)
David L. Andrews, University of East Anglia Norwich (United Kingdom)
Pierre Berini, University of Ottawa (Canada)
Alexandra Boltasseva, Purdue University (United States)
Igal Brener, Sandia National Laboratories (United States)
Mark Brongersma, Stanford University (United States)
Che Ting Chan, Hong Kong University of Science and Technology
(Hong Kong, China)
Hongsheng Chen, Zhejiang University (China)
Jennifer A. Dionne, Stanford University (United States)
Harald W. Giessen, Universität Stuttgart (Germany)
Yuri S. Kivshar, The Australian National University (Australia)
Jacob B. Khurgin, Johns Hopkins University (United States)
Uriel Levy, The Hebrew University of Jerusalem (Israel)
Natalia M. Litchinitser, University at Buffalo (United States)
Martin W. McCall, Imperial College London (United Kingdom)
Albert Polman, FOM Institute for Atomic and Molecular Physics
(Netherlands)
Gennady B. Shvets, The University of Texas at Austin (United States)
David R. Smith, Duke University (United States)
Costas M. Soukoulis, Iowa State University (United States)
Mark I. Stockman, Georgia State University (United States)
Sergei Tretyakov, Aalto University School of Science and Technology
(Finland)

Din Ping Tsai, National Taiwan University (Taiwan)
Augustine M. Urbas, Air Force Research Laboratory (United States)
Martin Wegener, Karlsruher Institut für Technologie (Germany)
Xiang Zhang, University of California, Berkeley (United States)

Session Chairs

- 1 Metamaterial Devices and Systems
Mikhail A. Noginov, Norfolk State University (United States)
- 2 Metasurfaces
Vladimir M. Shalaev, Purdue University (United States)
- 3 Hyperbolic Metamaterials I
Viktor A. Podolskiy, University of Massachusetts Lowell (United States)
- 4 Hyperbolic Metamaterials II
Viktor A. Podolskiy, University of Massachusetts Lowell (United States)
Christopher M. Roberts, University of Massachusetts Lowell
(United States)
- 5 Graphene and 2D Systems
Natalia M. Litchinitser, University at Buffalo (United States)
- 6 Novel Phenomena I
Philippe Tassin, Chalmers University of Technology (Sweden)
- 7 Thermal and IR Metamaterials
Aitzol I. Garcia Etxarri, Stanford University (United States)
- 8 Active Control I
Isabelle Staude, The Australian National University (Australia)
- 9 All Dielectric Metamaterials
Aitzol I. Garcia Etxarri, Stanford University (United States)
- 10 Controlling Physical Phenomena with Metamaterials
Anthony Grbic, University of Michigan (United States)
- 11 Novel Material Platforms
Uriel Levy, The Hebrew University of Jerusalem (Israel)
- 12 Active Control II
Naresh K. Emani, Purdue University (United States)

- 13 Novel Phenomena II
Alexandros Selimis, Foundation for Research and Technology-Hellas
(Greece)
- 14 Fabrication
Zubin Jacob, University of Alberta (Canada)
- 15 Nonlinear Phenomena
Robert Schiffny, Karlsruher Institut für Technologie (Germany)
- 16 THz Metamaterials
Wenshan Cai, Georgia Institute of Technology (United States)
- 17 Imaging and Cloaking
Anna Tasolamproui, Foundation for Research and Technology-Hellas
(Greece)
