The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

v *Conference Committee*

QUANTUM IMAGING I

12795 02 **Real-time entangled photon-pair imaging towards field deployment (Invited Paper)** [12795-1]

12795 03 **Drone-based gas leak detection system for use in industry** [12795-2]

QUANTUM IMAGING II

12795 04 **The rapid measurement of quantum spatial correlations using a photon-number resolving camera** [12795-7]

12795 05 **Quantum illumination correlation peak integration** [12795-8]

QUANTUM SENSING

12795 06 **Controlling two-photon interference and entanglement with mechanical rotations** [12795-10]

QUANTUM COMPONENTS

12795 07 **GaN laser diodes for the development of quantum sensing and timing systems (Invited Paper)** [12795-13]

QUANTUM COMMS

12795 08 **Beamshaping beacon light for satellite quantum key distribution: spatial separation and point ahead angle (Invited Paper)** [12795-17]

12795 09 **Investigation on the electromagnetic radiated emissions of a single-photon avalanche diode** [12795-19]

12795 0A **Quantum correlations for hiding images in noise** [12795-21]
