

PROCEEDINGS OF SPIE

Compressive Sensing

Fauzia Ahmad

Editor

26–27 April 2012

Baltimore, Maryland, United States

Sponsored and Published by
SPIE

Volume 8365

Proceedings of SPIE, 0277-786X, v. 8365

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Compressive Sensing, edited by Fauzia Ahmad,
Proc. of SPIE Vol. 8365, 836501 © 2012 SPIE
CCC code: 0277-786X/12/\$18 · doi: 10.1117/12.981277

Proc. of SPIE Vol. 8365 836501-1

The papers included in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. The papers published in these proceedings reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from this book:

Author(s), "Title of Paper," in *Compressive Sensing*, edited by Fauzia Ahmad, Proceedings of SPIE Vol. 8365 (SPIE, Bellingham, WA, 2012) Article CID Number.

Copying of material in this book for internal or personal use, or for the internal or personal use of specific clients, beyond the fair use provisions granted by the U.S. Copyright Law is authorized by SPIE subject to payment of copying fees. The Transactional Reporting Service base fee for this volume is \$18.00 per article (or portion thereof), which should be paid directly to the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923. Payment may also be made electronically through CCC Online at copyright.com. Other copying for republication, resale, advertising or promotion, or any form of systematic or multiple reproduction of any material in this book is prohibited except with permission in writing from the publisher. The CCC fee code is 0277-786X/12/\$18.00.

Printed in the United States of America.

Publication of record for individual papers is online in the SPIE Digital Library.

The logo for SPIE Digital Library features the word "SPIE" in a bold, sans-serif font above the words "Digital Library" in a similar font. To the right of the text is a stylized graphic consisting of three vertical bars of varying heights, with a curved line arching over them.

Paper Numbering: Proceedings of SPIE follow an e-First publication model, with papers published first online and then in print and on CD-ROM. Papers are published as they are submitted and meet publication criteria. A unique, consistent, permanent citation identifier (CID) number is assigned to each article at the time of the first publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online, print, and electronic versions of the publication. SPIE uses a six-digit CID article numbering system in which:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc.

The CID number appears on each page of the manuscript. The complete citation is used on the first page, and an abbreviated version on subsequent pages. Numbers in the index correspond to the last two digits of the six-digit CID number.

Contents

vii *Conference Committee*

SESSION 1 COMPRESSIVE SENSING I

- 8365 04 **An examination of the effects of sub-Nyquist sampling on SNR** [8365-03]
B. Pollock, Univ. of Arizona (United States); N. A. Goodman, Univ. of Oklahoma (United States)
- 8365 05 **Geometry of random Toeplitz-block sensing matrices: bounds and implications for sparse signal processing** [8365-04]
W. U. Bajwa, Rutgers, The State Univ. of New Jersey (United States)
- 8365 06 **On linear block codes and deterministic compressive sampling** [8365-05]
N. Tsagkarakis, D. A. Pados, Univ. at Buffalo (United States)

SESSION 2 COMPRESSIVE SENSING II

- 8365 08 **Improving sparse representation algorithms for maritime video processing** [8365-08]
L. N. Smith, J. M. Nichols, J. R. Waterman, U.S. Naval Research Lab. (United States);
C. C. Olson, Sotera Defense Solutions, Inc. (United States); K. P. Judd, U.S. Naval Research Lab. (United States)

SESSION 3 COMPRESSIVE SENSING FOR SPECTRAL IMAGING AND MEDICINE

- 8365 0A **Spatial super-resolution in code aperture spectral imaging** [8365-10]
H. Arguello, H. F. Rueda, Univ. of Delaware (United States) and Univ. Industrial de Santander (Colombia); G. R. Arce, Univ. of Delaware (United States)
- 8365 0B **Adaptive feature-specific spectral imaging** [8365-11]
P. A. Jansen, M. J. Dunlop, D. R. Golish, Univ. of Arizona (United States); M. E. Gehm, Univ. of Arizona (United States) and College of Optical Sciences, The Univ. of Arizona (United States)
- 8365 0C **Compressive hyperspectral sensor for LWIR gas detection** [8365-12]
T. A. Russell, Raytheon Applied Signal Technology, Inc. (United States); L. McMackin, B. Bridge, Inview Technology Corp. (United States); R. Baraniuk, Rice Univ. (United States)
- 8365 0D **On exploiting interbeat correlation in compressive sensing-based ECG compression** [8365-13]
L. F. Polania, Univ. of Delaware (United States); R. E. Carrillo, École Polytechnique Fédérale de Lausanne (Switzerland); M. Blanco-Velasco, Univ. de Alcalá (Spain); K. E. Barner, Univ. of Delaware (United States)

- 8365 OE **Compressive sensing exploiting wavelet-domain dependencies for ECG compression** [8365-14]
L. F. Polania, Univ. of Delaware (United States); R. E. Carrillo, École Polytechnique Fédérale de Lausanne (Switzerland); M. Blanco-Velasco, Univ. de Alcalá (Spain); K. E. Barner, Univ. of Delaware (United States)

SESSION 4 COMPRESSIVE SENSING FOR IMAGES AND VIDEO

- 8365 OF **Single image super resolution via sparse reconstruction** [8365-15]
M. C. Kruithof, A. W. M. van Eekeren, J. Dijk, K. Schutte, TNO (Netherlands)
- 8365 OG **Classifying chart images with sparse coding** [8365-16]
J. Gao, Y. Zhou, K. E. Barner, Univ. of Delaware (United States)
- 8365 OH **An enhanced sparse representation strategy for signal classification** [8365-17]
Y. Zhou, J. Gao, K. E. Barner, Univ. of Delaware (United States)
- 8365 OI **Progressive compressive imager** [8365-18]
S. Evladov, O. Levi, A. Stern, Ben-Gurion Univ. of the Negev (Israel)
- 8365 OJ **Adaptive compressive sensing algorithm for video acquisition using a single pixel camera** [8365-19]
I. Noor, E. L. Jacobs, The Univ. of Memphis (United States)
- 8365 OK **Compressive imaging: exploiting multiple frames for enhanced video reconstruction** [8365-20]
J. Tucker, R. Muise, Lockheed Martin Missiles and Fire Control (United States)
- 8365 OL **Decoding of purely compressed-sensed video** [8365-21]
Y. Liu, M. Li, D. A. Pados, Univ. at Buffalo (United States)

SESSION 5 COMPRESSIVE SENSING FOR COMMUNICATIONS

- 8365 OM **CHOCs: a framework for estimating compressive higher order cyclostationary statistics** [8365-22]
C. W. Lim, M. B. Wakin, Colorado School of Mines (United States)
- 8365 ON **Tracking the sparseness of the underlying support in shallow water acoustic communications** [8365-23]
A. Sen Gupta, J. Preisig, Woods Hole Oceanographic Institution (United States)
- 8365 OO **Random versus structured projections: compressive channel sensing for underwater communications under waveguide constraints** [8365-24]
Z. Tian, Michigan Technological Univ. (United States); M. Wang, Xidian Univ. (China)
- 8365 OP **Compressive sensing of frequency-hopping spread spectrum signals** [8365-25]
F. Liu, Y. Kim, Univ. of Arizona (United States); N. A. Goodman, Univ. of Oklahoma (United States); A. Ashok, College of Optical Sciences, Univ. of Arizona (United States) and Univ. of Arizona (United States); A. Bilgin, Univ. of Arizona (United States)

SESSION 6 COMPRESSIVE SENSING FOR RADAR I

- 8365 0Q **Dictionary reduction technique for 3D stepped-frequency GPR imaging using compressive sensing and the FFT** [8365-26]
K. Krueger, J. H. McClellan, W. R. Scott, Jr., Georgia Institute of Technology (United States)
- 8365 0R **Through-the-wall moving target detection and localization using sparse regularization** [8365-27]
F. Ahmad, M. G. Amin, J. Qian, Villanova Univ. (United States)
- 8365 0S **A study on power allocation for widely separated CS-based MIMO radar** [8365-28]
Y. Yu, A. P. Petropulu, Rutgers, The State Univ. of New Jersey (United States)
- 8365 0T **Sample selection and adaptive weight allocation for compressive MIMO UWB noise radar** [8365-29]
Y. Kwon, R. M. Narayanan, The Pennsylvania State Univ. (United States); M. Rangaswamy, Air Force Research Lab. (United States)

SESSION 7 COMPRESSIVE SENSING FOR RADAR II

- 8365 0U **Band-limited random waveforms in compressive radar imaging** [8365-31]
M. C. Shastry, R. M. Narayanan, The Pennsylvania State Univ. (United States);
M. Rangaswamy, Air Force Research Lab. (United States)
- 8365 0W **Partially sparse reconstruction of behind-the-wall scenes** [8365-33]
F. Ahmad, M. G. Amin, Villanova Univ. (United States)

POSTER SESSION

- 8365 0X **Remote sensing images recognition based on constrained independent component analysis via compressed sensing** [8365-34]
J. Lan, Y. Zeng, Y. Lu, Univ. of Science and Technology Beijing (China)
- 8365 0Y **Compressive sensing-based image denoising using adaptive multiple samplings and reconstruction error control** [8365-35]
W. Kang, E. Lee, S. Kim, Chung-Ang Univ. (Korea, Republic of); D. Seo, Korea Aerospace Research Institute (Korea, Republic of); J. Paik, Chung-Ang Univ. (Korea, Republic of)

Author Index

Conference Committee

Symposium Chair

Kevin P. Meiners, Office of the Secretary of Defense (United States)

Symposium Cochair

Kenneth R. Israel, Lockheed Martin Corporation (United States)

Conference Chair

Fauzia Ahmad, Villanova University (United States)

Program Committee

Moeness G. Amin, Villanova University (United States)

Abdesselam Salim Bouzerdoun, University of Wollongong (Australia)

Rabinder N. Madan, Office of Naval Research (United States)

Ram M. Narayanan, The Pennsylvania State University (United States)

Athina P. Petropulu, Rutgers, The State University of New Jersey (United States)

Session Chairs

- 1 Compressive Sensing I
Nathan A. Goodman, The University of Oklahoma (United States)
- 2 Compressive Sensing II
Waheed U. Bajwa, Rutgers, The State University of New Jersey (United States)
- 3 Compressive Sensing for Spectral Imaging and Medicine
Ivana Stojanovic, Scientific Systems Company, Inc. (United States)
- 4 Compressive Sensing for Images and Video
Dimitris A. Pados, University at Buffalo (United States)
- 5 Compressive Sensing for Communications
Rabinder N. Madan, Office of Naval Research (United States)
- 6 Compressive Sensing for Radar I
Eric L. Mokole, U.S. Naval Research Laboratory (United States)
- 7 Compressive Sensing for Radar II
Ram M. Narayanan, The Pennsylvania State University (United States)
